

Hi, I'm James – I'm a web designer based in Sydney, Australia. I am passionate about design and visual expression is an important part of my life. I love the gamut of design that spans from fashion to hand coding semantic, standards compliant code.

Experience

Reactive Media

Junior Web Designer – Nov 2007 to Jan 2009

Reactive is a boutique web design and development agency with 3 offices located in Sydney, London and Melbourne.

Working in the Sydney office as a junior for just over a year my role was primarily dedicated to web design and development. Drawing on a variety of skills I was also involved in flash & video projects. I Collaborated closely with senior staff & enjoyed working in a team environment but also worked autonomously when required.

Samples of my work whilst at Reactive are available on my portfolio site – <http://www.jamesdeangelis.com/>
